

Women in Measurement, Inc. Research Fellowship

Proposal Guidelines

Women in Measurement, Inc. is proud to offer a research fellowship program to support outstanding research that seeks to better understand the intersection of race and/or gender issues and educational measurement. The award is intended to promote female-led research that focuses on advancing equity in the field of educational measurement or, more generally, in the design and use of educational assessment. Female minorities and women of color are especially encouraged to apply.

Award Details:

Fellowship appointments include a \$2,500 award to support the researcher and cover any costs associated with attending an annual conference for research dissemination. The award will be provided in two parts, \$1,500 upon acceptance and \$1,000 upon completion.

Proposal:

Please submit a written proposal to fellowship@womeninmeasurement.org by **11:59pm on June 31, 2021**. The proposal should contain the following information:

1. Project title
2. Researcher biography (200 word limit)
3. Project abstract (200 word limit)
4. Project description (800 word limit) that includes:
 - a. Introduction
 - b. Research questions
 - c. Methodology and data sources
 - d. Implications for the field
 - e. Project timeline

Selection:

Proposals will be reviewed by the Women in Measurement leadership team and the award will be announced in mid-July, 2021.
